### Remote/Community Isolations:

- None reported.

# WEATHER OF CONCERN

## Weather of Concern

- A feed of subtropical moisture into Northern California will keep a mainly wet pattern going over the region for the coming week.
- Heavy rain has caused the National Weather Service to issue a flash flood products for burn scar areas until tomorrow afternoon.
- The Central Valley and Southern Region can expect moderate to heavy rainfall in the mountainous areas and foothills below 7,000 feet where 1-4 inches of rain may fall through tomorrow afternoon up to 6 inches in some areas.
- A strong Pacific storm system will interact with deep subtropical moisture creating an atmospheric with the potential to bring heavy rainfall across Central and Southern California late Saturday through Monday.

## **Active Weather Warnings, Watches and Advisories by County:**

[http://www.wrh.noaa.gov/sto/brief/wwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php)

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

A series of very wet Pacific winter storms will continue to impact the region for the next week to ten days. The current system is gradually exiting the region, but the last snow showers from it will end late tomorrow in the Lake Tahoe region. Light to locally moderate northwest to northeast surface winds will gradually move in behind this system - in northern areas tonight and tomorrow and farther south in the evening and early Friday. A second storm system will arrive Friday night or Saturday and continue into early next week. More waves of moderate to heavy precipitation will follow all of next week. Snow levels will generally be 2000-4000 feet in the north and 3000-5000 feet in the south - at times a bit higher as a wave of precipitation approaches and then sometimes lower at the tail end of each wave. Gusty southeast to southwest winds will also be common as each wave approaches. Total water equivalent for the next week could be 10-15 inches in the mountains and 2-5 inches at lower elevations.

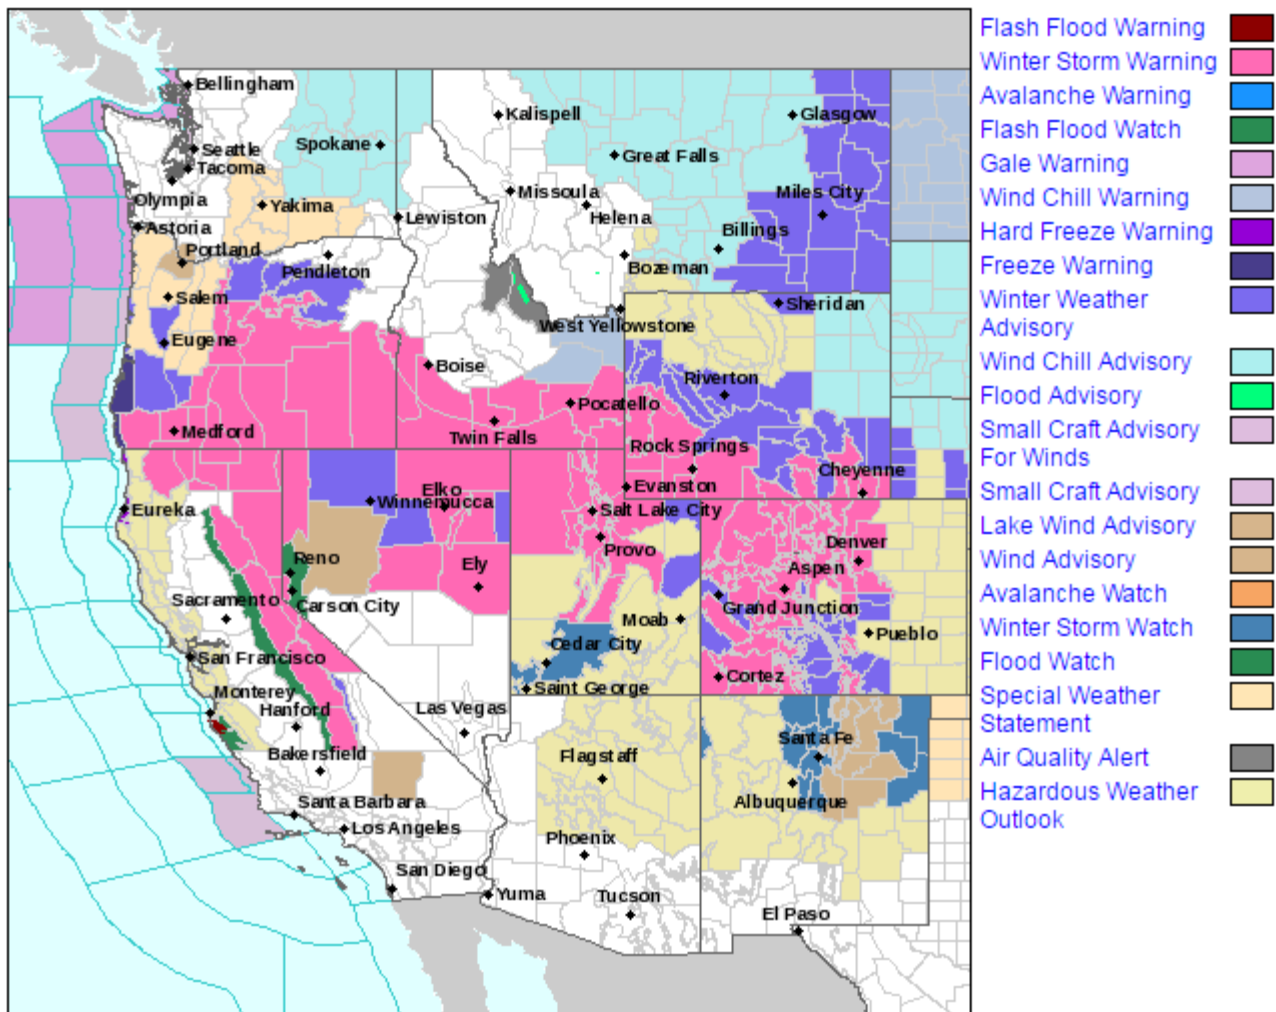

## **SOUTHERN CALIFORNIA**

Rain, heavy at times, will continue across Central California through tomorrow afternoon as zonal flow continues. Showers will move south into the region this evening and continue through tomorrow evening. An additional 4 to 8 inches of rainfall will occur across the foothills and mountains of Central California, with 1 to 2 inches of additional rainfall across the coastal and valley areas of Central California through tomorrow. Most foothill and mountain locations of the region will receive between a half and one inch of rainfall, while most coastal and valley locations receive between a quarter inch and a half inch of rainfall. The snow level will be between 7,000 and 8,000 feet. Temperatures will be near to a little below average through tomorrow, with 40s to low 50s across the mountains and 50s to low 60s in the valleys. A weak ridge of high pressure will bring a little warmer temperatures along with dry conditions to the region Friday. Zonal flow will set up again Saturday through early next week bringing periods of heavy rainfall to Central California. This rain will spread south into Southern California early next week. The foothills and mountains of Central California will receive between 6 and 12 inches of rainfall during this period, while the coastal and valley areas receive between 3 and 6 inches of rainfall. Most of Southern California will receive between 1 and 3 inches of rainfall early next week. The snow level will rise to around 10,000 feet this weekend then lower to between 6,000 and 7,000 feet early next week. Temperatures will be a little above normal this weekend and then drop to a little below normal early next week. There will be periods of strong and gusty south to west winds over the wind prone mountain and desert areas through early next week. The only day with light winds across the entire region will be Friday when the weak ridge of high pressure moves across California..

## WEATHER MAP

Last map update: Jan, 4th 2017 at 10:48:22 am MST

# **CAL OES LAW ENFORCEMENT MISSIONS**

## **Ongoing Cal OES Law Missions**

- **2017-LAW-29060, 1/3/17 at 0600 hours:** Calaveras County requested cell phone forensics and a search helicopter to locate a 42 year old male missing while snow shoeing. Air Force Rescue Coordination Center (AFRCC) has provided cell phone forensics which provided a search area of 38.3848508, -120.235662 and the California National Guard is working on a helicopter. The weather is hampering helicopter support. **Mission Ongoing.**

## **Closed Cal OES Law Missions**

- **2017-LAW-29072, 1/3/17 at 1052 hours:** Mendocino County Sheriff requested mutual aid assistance in rescuing three subjects stranded in a vehicle at 39.535171° by -122.950723°, which plots to Forest Rd 7N02 in Mendocino National Forest. The subject's vehicle was disabled as a result of deep snow. Mendocino requested a Snow Cat, and a back up plan of a California National Guard helicopter to extract the individuals. A Snow Cat from the South Lake County Fire Department, with personnel from Cal Fire, were able to respond and rescue the stranded subjects. The California National Guard was on standby but was not deployed. **Mission Closed.**

# **CAL OES MISSIONS**

## **Cal OES Missions**

- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through 02/01/17. **Mission Ongoing.**
- **2016-Coastal-26412:** DTSC clean up assistance requested for the Clayton Fire in Lake County; on scene through 02/01/17. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

# **Cal OES 2016 DROUGHT**

**The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.**

## **Current Local Emergency Proclamations:**

A total of **58** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County), City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County).
- 11 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County), Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Tuolumne Band of Me-Wuk Indians (Tuolumne County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
